

# Findings of SC D&BE on its meeting on 26-10-2012

- 
- The actions of the SC will be determined by activities and information deriving from the European Commissions – primarily communications, roadmaps, statements and proposals. This will determine the SC's Business Plan and that not only for the coming 2 to 3 years but up to Horizon 2020.
  - It may be tried to be involved in all relevant / important EC stakeholders events – and make contributions.

- 
- Condensed information may be circulated through the General Secretary and – if the case may be – put in the ECCE journal.
  - It is suggested that ECCE may invite at ECCE – GAMs at least one representative of the EU Institutions.
  - President and /or members of ExBo are invited to make contacts with relevant MEPs and experts of their Permanent Representatives to sensibilise on ECCE matters ( e.g. based on the Manifesto)

- 
- It is thought useful to meet Vice President TAJANI and / or members of his Cabinet.
  - ECCE should favor the creation of an EP Intergroup on construction (and to support relevant ESF efforts).
  - A draft letter or statement may be established by SC and circulated via the General Secretary for reactions / contributions, It has to be decided to WHOM (primarily to some MEPs) it shall be send by the President of ECCE.
