

Reinstallation of the SC Environment and Sustainability Application as Chairman

Proposal of the Business plan 2012 - 2013

General remarks

The main objective will be a survey of "what is meant by ECCE members when using Sustainability and Environment within their profession". A second survey will be the collection of data about education of topics or even study programmes in Sustainability and Environment in Europe, and moreover in the total Bologna region. A third goal is to find out European supporting programmes on ECCE Sustainability and Environment efforts.

Topics of the business plan

1. Start of collection of data about higher education in E+S in Europe and the Bologna region and preliminary result.
2. Start of collection of data about involvement and priority of E+S within the policy of all our ECCE-members and preliminary results e.g.
 1. On- and offshore wind power and civil engineering
 2. Concentrated solar power and civil engineering
 3. waste management
 4. others
3. Start of collection of data of European funded investigation and research projects as there are
 1. URBAN II (III?)
 2. INTERREG III
 3. LIFE
 4. Water
 5. Others

and first feasibility considerations and preliminary descriptions.
Visit to Brussels to investigate funding possibilities.

4. Start of cooperation by addressing **WFEO** SC Energy and its groups.
5. Start of cooperation by addressing **WCCE**, especially its SC on Water.
