20 (1994-2014)	8,4	
	8,8	7,8
7 (2007-2014)	2,8	
	2,2	4,3

Planned the total length of highways in Poland

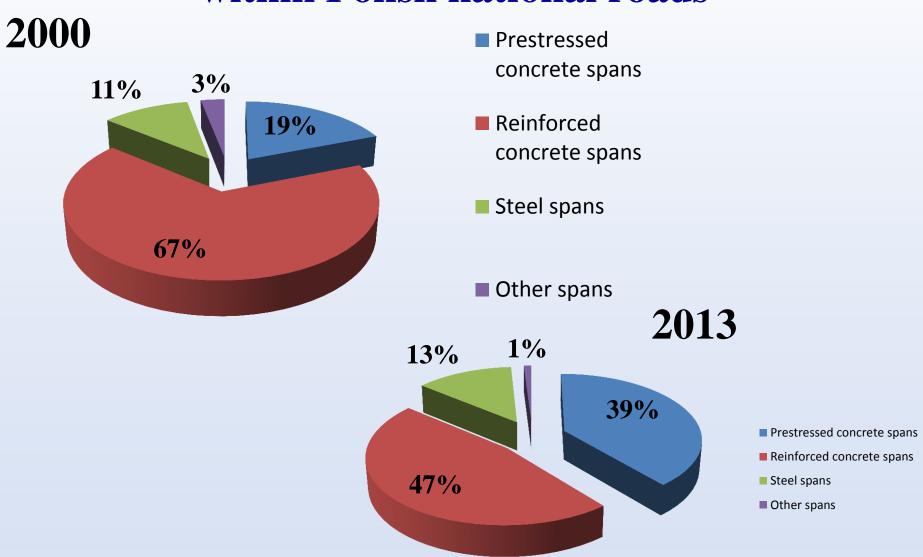

The number of bridge structures within Polish national roads

Year	2000	2013
Bridge structure	3 363	6 162
Total length	124 759 m	315 983 m
Total area	1 502 153 m ²	4 292 118 m ²

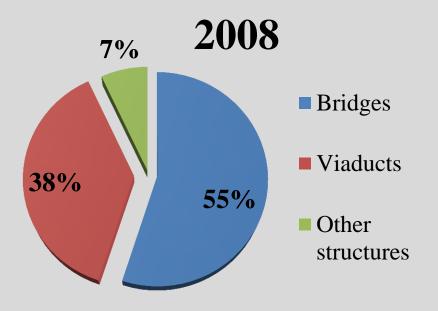

Comparison of the number of bridge structures within Polish national roads

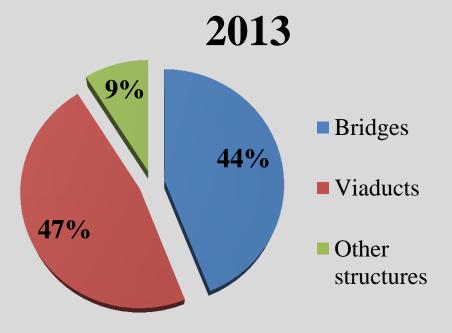

2000-2013	Comparison
Bridge structure	1,8
Total length	2,5
Total area	2,9
Bridge structure – 200 m	2,5

Comparison of bridge spans within Polish national roads

Comparison of bridge structures within Polish national roads

The total length of Polish national roads in 2014

Year	National roads	
2014	Highways	Other
	19 000 km	
	2 800 km	16 200 km

The length of Polish national roads were built during 2007-2013

Years	National roads	
2007-2013	Highways	Other
	3 000 km (16%)	
	1 800 km (64%)	1 200 km

The number of bridge structures in Poland were built during 2011-2013

Years	2011-2013
Number of bridge structures	1500

AN INVESTMENT PROCESS ON SUCH A LARGE SCALE HAS BEEN PERFORMED IN POLAND

If you are on the right way,
every step you take,
no matter how small it is,
bring you closer to the destination

H. Jackson Brown
