## Foreword

Starting from year 1991, faculty of Civil Engineering at Vilnius Gediminas Technical University (VGTU) together with national and international partners already has organized ten highly successful international scientific conferences to discuss up-to-date problems in civil engineering. This conference is aimed at discussing of both industrial and academic research which has been recently carried out on analysis and design of modern structures, development of innovative building materials, maintenance of structures, building technology and management, etc. The 10th international conference "Modern Building Materials, Structures and Techniques", held on 19–21 of May, 2010, was attended by nearly 400 scientists from more than 20 countries. The peer-reviewed selected papers of the last three conferences were published and sent to the ISI proceedings database for abstracting.

We intend to organize 11th international conference "Modern Building Materials, Structures and Techniques" in Vilnius, Lithuania, on 16–17 of May, 2013. The conference will provide an opportunity for scientists, engineers, managers and professionals from around the world to share the latest achievements and to highlight the problems. Such a conference will be an excellent opportunity to meet colleagues, to exchange knowledge and experience, and to extend your list of contacts.

## Conference topics

- Building materials and production technology
- Innovative analysis and design methods for bridges and building structures
- Behavior of concrete, masonry, glass, steel, timber and composite structures
- Repair, renovation and strengthening of bridges and building structures
- Geotechnics
- Optimization in structural engineering
- Architectural engineering
- Construction technology and organization
- Decision making, decision support systems and management in construction
- Facility and real estate management
- Fire safety, human safety and ergonomics

## Honorary committee

A. Daniūnas (Lithuania)	M. J. Skibniewski (USA)
Y. Horokhov (Ukraine)	P. Vainiūnas (Lithuania)
H. A. Mang (Austria)	E. K. Zavadskas (Lithuania)

## Publishing

Conference papers will be printed (hard copy) and distributed during the conference (along with other distributed materials). All published papers will be sent to ISI immediately for possible inclusion in the appropriate scientific databases.

Authors of the selected conference papers will be offered to supplement or modify their papers for possible publishing in the following scientific journals:

- Automation in Construction (Elsevier), WOS, IF=1.311
- Journal of Civil Engineering and Management (VGTU and Taylor & Francis), WOS, IF=3.711
- Technological and Economic Development of Economy (VGTU and Taylor & Francis), WOS, IF=5.605
- International Journal of Strategic Property Management (VGTU and Taylor & Francis), WOS, IF=2.615
- The Baltic Journal of Road and Bridge Engineering (VGTU and Taylor & Francis), WOS, IF=2.436
- Transport (VGTU and Taylor & Francis), WOS
- Journal of Environmental Engineering and Landscape Management (VGTU and Taylor & Francis), WOS, IF=1.333
- Engineering Structures and Technologies (VGTU and Taylor & Francis)
