

Our Structure

- Chairman of the Foundation
Prof. Joachim Lenz

The foundation was established on the occasion of his retirement in the year 2003

Germany
Approx.
400,000 km²
Inhabitants
80,000,000

- Members of the Foundation Board

Ing. Franz Hoffmann
Dipl.-Ing. Ansgar Kortbus
Prof. Dipl.-Ing. Joachim Lenz
Dipl.-Ing. Hüseyin Özkan
Dr.-Ing. Manfred Veenker
Prof. Dr.-Ing. Manfred Weisensee

- Secretary

Jasmin Langenberg

MOTIVATION

What drives us?

Who are the benefactors?

Who are our partners at home and abroad?

Who are our partners in the eastern neighbouring countries?

Which young people do we approach?

Grants

Stiftung Prof. Joachim Lenz

STIFTUNG PROF. JOACHIM LENZ

The Prof-Lenz-Foundations offers
an internship / practical placement
for one or two students
for one year
in a German company

Grant recipients

Stiftung Prof. Joachim Lenz

STIFTUNG PROF. JOACHIM LENZ

- The grant recipients can also greatly benefit the companies that offer an internship in many ways.
- They are excellently trained engineers/economists with university/technical college degrees.
- So far more than 20 German companies have recognised the opportunities that such grant recipients can offer them.
- A grant recipient costs approx. 15,000 - 20,000 €/year.

- Along with their native language, they speak German, are more or less fluent in English and sometimes also speak a further European language, e.g. Spanish or French.
- They are all highly motivated and they are able to apply their knowledge and skills in the company that offers them an internship although they do need some time before they are able to express themselves in German and completely understand German.
- In most cases they are also able to help the company that offers them an internship gain access to the market in their home country.

Areas of internship

Stiftung Prof. Joachim Lenz

STIFTUNG PROF. JOACHIM LENZ

In which areas are internships offered?

The internship must somehow have to do with

- water or energy or
- environment protection technologies

Requirements

Stiftung Prof. Joachim Lenz

STIFTUNG PROF. JOACHIM LENZ

Must speak German well enough that they can manage in Germany without an interpreter.

Must have concluded their studies with at least satisfactory results.

Must be unaccompanied, i.e. come to Germany without family.

„Iro members donated approx. 100,000 Euros to promote youth exchange and it was my responsibility to organise this.

I could not have imagined a nicer present to start the last phase in my life.“

Prof. Jochim Lenz at his retirement ceremony.

Stiftungspreis „Jugend baut Europa“

Foundation prize

Stiftung Prof. Joachim Lenz

STIFTUNG PROF. JOACHIM LENZ

Award of the Foundation Prize

- every three years
- promotion of bilateral projects/engineering works in
- Central and Eastern Europe and Russia

Requirement for application:

The project or engineering work must

- involve our vital resources energy and/or water or waste water
- include cooperation between Germany and at least one neighbouring country
- have clear practical relevance or have reliably proved itself in practice or represent an outstanding theoretical approach.

Foundation meetings

Stiftung Prof. Joachim Lenz

STIFTUNG PROF. JOACHIM LENZ

Foundation Meetings take place every three years:

1. Foundation Meeting	Prague	2007
2. Foundation Meeting	Oldenburg	2009
3. Foundation Meeting	Krakow	2012
4. Foundation Meeting	Oldenburg	2015
5. Foundation meeting	Ostrava	2018

Project as example

Stiftung Prof. Joachim Lenz

STIFTUNG PROF. JOACHIM LENZ

Project:

“Emergency safeguarding the Kurozweki palace complex (Poland) in the case of floods”

Place of meeting (see following slide):

The Collegium Maius in Krakow. The Collegium Maius is the oldest building at the Jagiellonian University in Krakow.
