

# News update from WCCE

69<sup>th</sup> ECCE Meeting

May 30<sup>th</sup>, 2019

Podgorica, Montenegro

# *Civil Engineering Heritage in the Americas*

13<sup>th</sup>

**WCCE  
GENERAL  
ASSEMBLY**

19-22<sup>nd</sup> SEPTEMBER 2018

SUCRE  
BOLIVIA

# 2019 - Rio Declaration

**Fostered by CICPC and signed together with:**

- **CICPC-CECPC Council of Civil Engineering Associations from Portuguese and Spanish Speaking Countries**
- **UPADI - Pan American Union of Engineering Organizations**
- **WFEO – World Federation of Engineering Organizations**

*In defense of the future*

# Joint initiatives

- Sustainable Development Goals dissemination

- II Engineering Report
  - Ethics
  - Gender
  - Regional reports
- Promote Gender Equality in Civil Engineering

# 37001 Prevention of Corruption

A partnership for the implementation of this standard has been established between:

- WFEO
- GIACC
- And WCCE

## GIACC

*Global Infrastructure Anti-Corruption Centre*

The Working Group on Water (WGoW) brings together experts actively involved in providing engineering solutions to advance the SDG 6: Ensure access to water and sanitation for all

WFEO-WGW

Water security is essential to achieve SDG 6 and resilience to climate change requires that engineering will provide knowledge and technology, leading water governance and its efficient use.

6 CLEAN WATER  
AND SANITATION

The Working Group on Water (WGoW) brings together experts actively involved in providing engineering solutions to advance the SDG 6: Ensure access to water and sanitation for all

WFEO-WGW

UN WATER

Partner

WCCE's Standing Committee on Water, through its UN Water partner status will lead WFEO's effort to acquire greater relevance in water global decisions, showing the society the importance of engineering to improve the living conditions of all mankind.

The Working Group on Water (WGoW) brings together experts actively involved in providing engineering solutions to advance the SDG 6: Ensure access to water and sanitation for all

WFEO-WGW

## Deliverables 2019 - 2021

**2019** - “Managing droughts and floods: Best practices and engineering contribution”.

**2020** - “Achieving SDG 6 (Water goals): Contribution from engineering”

**2021** - “Adaptation to climate change: water and engineering contribution”

The Working Group on Water (WGoW) brings together experts actively involved in providing engineering solutions to advance the SDG 6: Ensure access to water and sanitation for all

WFEO-WGW

**How to contribute to “Managing droughts and floods: Best practices and engineering contribution”.**

Working Group on Water-WFEO

**Managing Floods and Droughts: Best practices and Engineering Contribution**

**Collaborating Form**

**General info:**

Organization:.....

Representative:

- Name:.....
- email:.....
- Phone:.....

Special remarks:

**Short questionnaire:**

The aim of the following questions is to be an easy tool for the collaborators to do their contributions:

- 1) Is there a public water administration in your country?
- 2) Are there basin river authorities in your country?
- 3) Who is/are the authority/authorities that manage droughts and floods?

**For the item “Experiences and Best Practices”:**

**A) Flood and Drought Risk Management Plans (5.1.)**

- 1) Does your country have a flood risk management plan? (YES/NO)
- 2) Does your country have a drought risk management plan? (YES/NO)
- 3) Participation of the engineering sector in the flood risk management plan/drought risk management plan of your country
- 4) Important features of your country's flood management plan/ drought risk management plan (especially those related to engineering)

**B) Measures to cope flood risks.**

- 1) Are there automatic hydrological information systems in your country?
- 2) What entity is in charge of them?
- Does effective flood management apply in your country?

**Fill in the questionnaire available from ECCE Secretariat**

# EAMC General Assembly

GA Beirut Sept 2018

**Attend WCCE's GA!!  
Mark your calendars!!**

**24-25<sup>th</sup> September, 2019  
Lisbon, Portugal**

# The Award

- 1<sup>st</sup> Edition in 2010 under the name of the Civil Engineering Excellence Award.
- After the passing away of our Founding President, it was renamed on his behalf.

JOSE MEDEM  
CIVIL ENGINEERING  
**EXCELLENCY  
AWARD**

## Awarding ceremony during 14<sup>th</sup> WCCE's General Assembly Gala Dinner

# Awardee

Antonio Adao da Fonseca

# One last thing

United Nations  
Educational, Scientific and  
Cultural Organization

Sustainable  
Development  
Goals

**We still need your data for WCCE /  
UNESCO's joint project on gender  
equality**

**Ask ECCE Secretariat for more  
information on the project.**

Join us!!
