Movement of CP – general principles

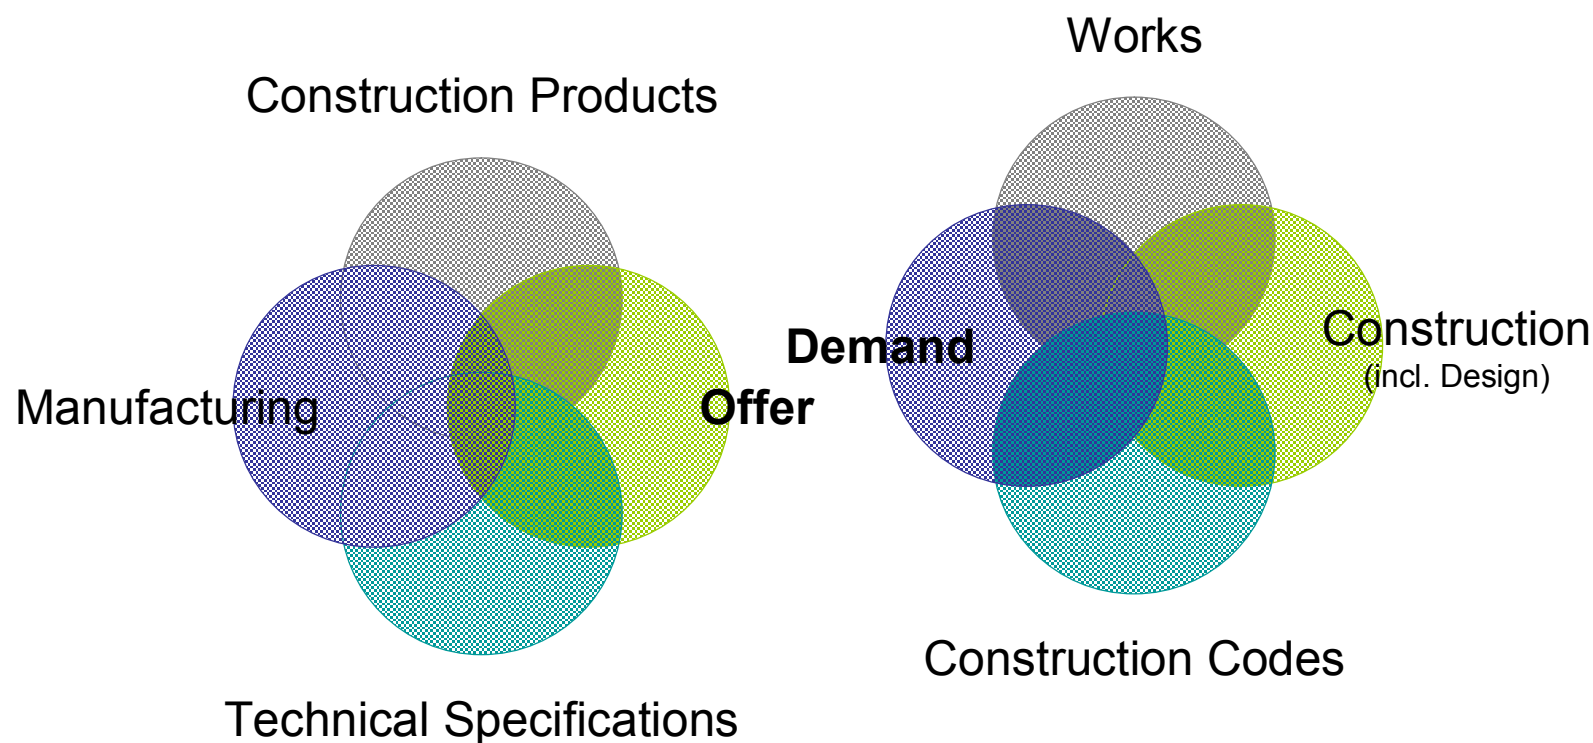

- For the purposes of CPD,
'construction product' means any product which is produced for incorporation in a permanent manner in construction works, including both buildings and civil engineering works.

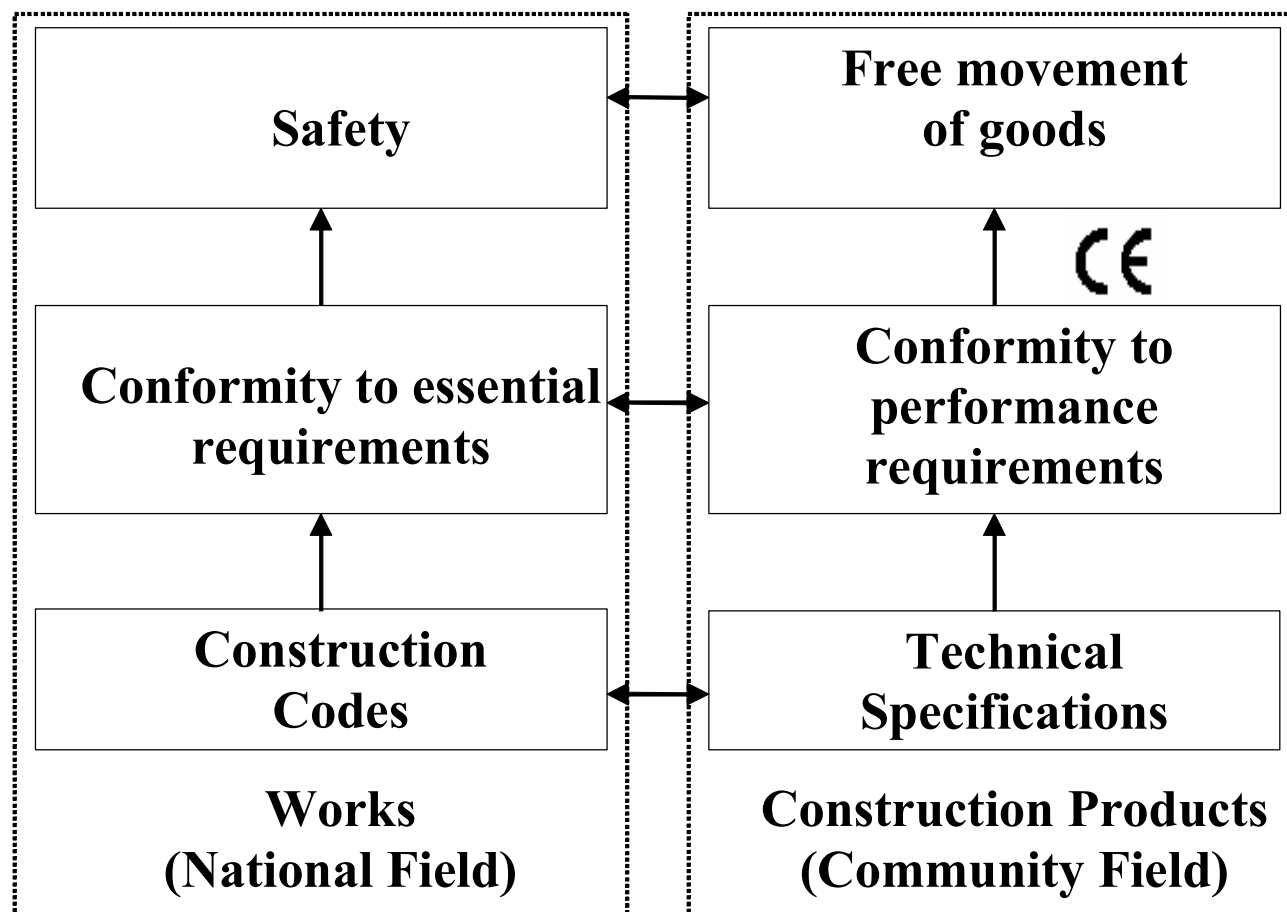

Movement of CP – general principles

- free movement and free use for CP intended purpose throughout the Community must be allowed
- CP quality relates to Works safety
- safety shall be defined on national level, in terms defined by Community

Movement of CP – general principles

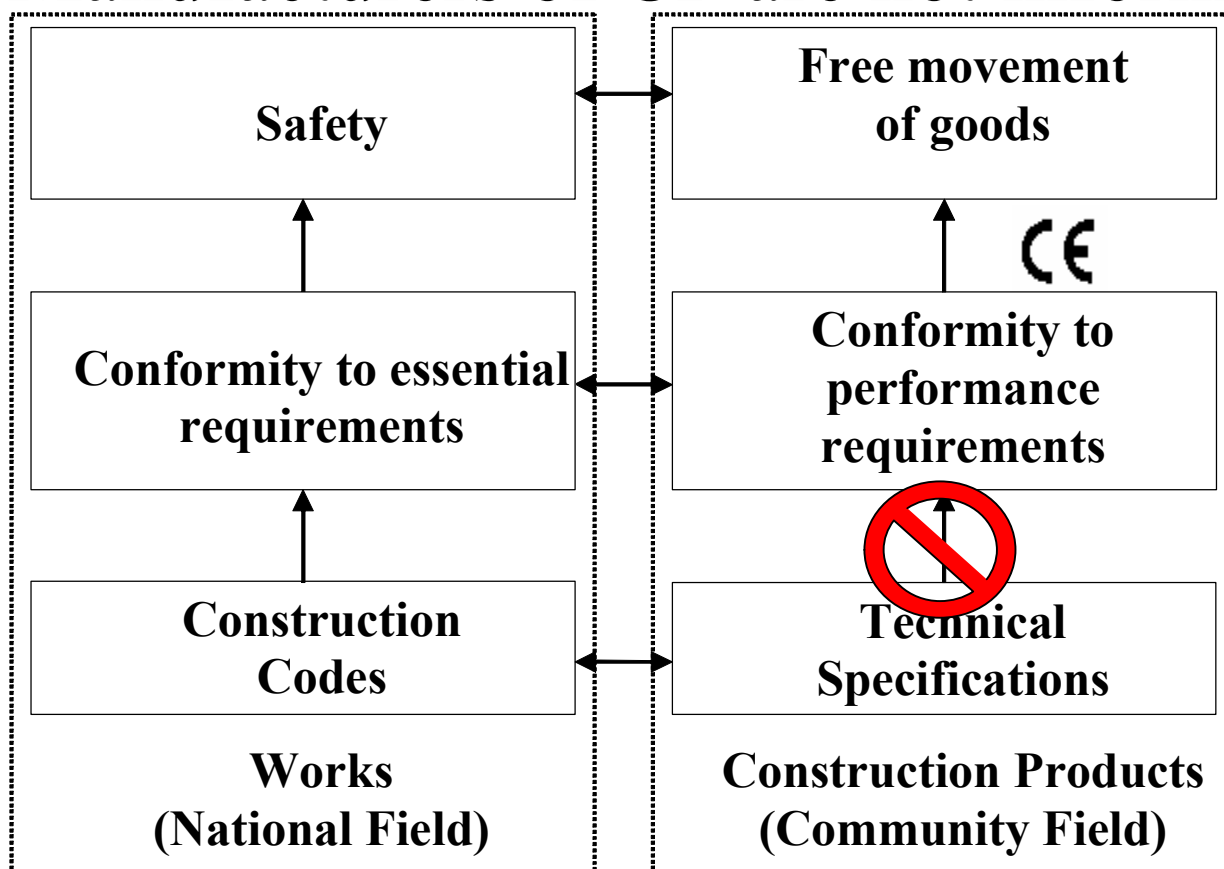

Movement of CP – general principles
